Fitting a car engine to a washing machine (spinning it up ...

A washing machine making a loud noise when spinning means a part has become worn out or loose. The issue that is causing the loud noise could be a number of different parts inside your washer. If the loud noise only happens when the washer is in spin mode, this can be a sign that the main tub bearing is worn out.

How To Fix A Washing Machine Making Noise During The Spin ...

This Amish-style washing machine is a refreshed take on the old James washer, and is great for washing clothes while saving on money and resources. Our hand wringer washer removes up to twice as much water as a spin dry and quickly squeezes out water from clothes, rags, sheets, blankets, chamois and more.
