REGZA Tablet Android AV 1 REGZA Tablet AT700

This step-by-step, highly visual text provides a comprehensive introduction to managing and maintaining computer hardware and software. Written by best-selling author and educator Jean Andrews, *A+ GUIDE TO MANAGING AND MAINTAINING YOUR PC* closely integrates the CompTIA A+ Exam objectives to prepare you for the 220-801 and 220-802 certification exams. The new Eighth Edition also features extensive updates to reflect current technology, techniques, and industry standards in the dynamic, fast-paced field of PC repair. Each chapter covers both core concepts and advanced topics, organizing material to facilitate practical application and encourage you to learn by doing. Supported by a wide range of supplemental resources to enhance learning—including innovative tools, interactive exercises and activities, and online study guides—this proven text offers an ideal way to prepare you for success as a professional PC repair technician. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

\* Tablet PCs, similar in size and thickness to a yellow paper notepad, are essentially modified notebooks that allow a user to take notes using natural handwriting with a digital pen on a touch-sensitive screen instead of typing on a keyboard \* All models of Tablet PCs can be attached to standard keyboards, monitors, and mouse devices for easy computing \* Geared toward the general user of the Tablet PC, with information about configuration, working with pen computing, Ink, voice recognition, and using the onscreen interface \* Covers computing topics such as file management, browsing the Internet, and using Office applications \* Includes case study examples of how the Tablet PC can be used in vertical applications such as healthcare and for enhanced productivity throughout an organization

This book gathers a selection of peer-reviewed papers presented at the first Big Data Analytics for Cyber-Physical System in Smart City (BDCPS 2019) conference, held in Shengyang, China, on 28–29 December 2019. The contributions, prepared by an international team of scientists and engineers, cover the latest advances made in the field of machine learning, and big data analytics methods and approaches for the data-driven co-design of communication, computing, and control for smart cities. Given its scope, it offers a valuable resource for all researchers and professionals interested in big data, smart cities, and cyber-physical systems.
